

### How to access the information available

illion Now provides three simple ways to view data on a business you want to know more about

#### Check

A quick and easy way see if the business is real, what it does, where it is located and make sure you have the right business before you order a report. Search for a business and hit view to check key details

#### Verify

Builds on a check so you can verify the identity of a company's directors and shareholders, view details of any red flags through adverse credit history and see who' has enquired on them.

#### Assess

Our flagship report so you can really understand if a business will continue to pay or if a customer or supplier is at a high risk of failing. Includes ownership, subsidiaries, trade payment information and illion's proprietary risk scores.
